

Industrias Borja Inborja S.A. is a producer and exporter of aseptic banana puree, committed to promoting sustainable development, maintaining the balance between

- **economic sustainability**, carrying out economically profitable practices, but also socially and environmentally responsible.
- **ecological sustainability**, through the efficient and rational use of natural resources without compromising the quality of life of future generations.
- **social sustainability**, carrying out development without deepening poverty, exclusion or inequality.

committed to compliance and continuous improvement by following SEDEX standards and our Internal Regulations, for which we will have the human talent and the necessary resources.
